

Iceland Volcano Marathon

Optional Excursions

GOLDEN CIRCLE TOUR (FROM REYKJAVIK) – 30 JUNE 2027

COST	\$455 AUD	DURATION	6 HOURS	DEPARTS	4:00 PM
------	-----------	----------	---------	---------	---------

The first stop will be at the Thingvellir National Park - the only place on Earth where the mid-Atlantic rift, dividing the American and Eurasian Continental Plates, is visible above sea-level. The next visit is Strokkur Geysir - Iceland's famous geyser which can hurl up boiling water to heights reaching 70 meters. The last stop is the massive waterfall Gullfoss. Although it's neither the largest nor tallest, it is arguably one of Iceland's most beautiful waterfalls with its two plateaus of which the lower has a drop of 21 meters.

EARTH LAGOON NATURE BATHS – 03 JULY 2027

COST	\$354 AUD	DURATION	2.5-3 HOURS	DEPARTS	7:30 PM
------	-----------	----------	-------------	---------	---------

The area around Mývatn is a hotspot for geological activity, and one of the by-products is geothermal water - some of which has been used to form the Jarðböðin Nature Baths. The Nature Baths' lagoon is manmade, but the water is drawn up from a 2500 metre deep hot spring, and is about 130 degrees C when it reaches the surface. This hot spring forms a basin which is then used to fill the lagoon. The lagoon itself averages between 36-40 degrees C, and the water is rich with minerals. Minimum 20 passengers required on tour.

MAJESTIC WATERFALLS – 04 JULY 2027

COST	\$455 AUD	DURATION	5 HOURS	DEPARTS	9:00AM
------	-----------	----------	---------	---------	--------

In a canyon known as Jökulsárgljúfur, visitors can witness many of these magnificent waterfalls - including one of the most powerful waterfalls in Europe: Dettifoss. Within walking distance (around 1km) lies another breathtaking scene: the Selfoss waterfall, which cascades 11 meters down. Although Selfoss is not as tall, it is very wide and thus poses an awe-inspiring sight. The third waterfall is called Hafragilsfoss and is a true hidden gem in Iceland. Minimum 20 passengers required on tour.

Iceland Volcano Marathon

Optional Excursions

MYVATN BEER BREWERY VISIT AND TASTING – 04 JULY 2027

COST	\$142 AUD	DURATION	1.5 HOURS	DEPARTS	LATE IN THE DAY
------	-----------	----------	-----------	---------	-----------------

Learn the story behind the family-owned brewery Mývatn Öl and enjoy a guided tasting of four unique Icelandic craft beers! You'll be taken behind the scenes to show how the beer is brewed, from selecting the finest ingredients to the final pour. Along the way, you'll get to taste four unique beers, each with its own character and story, and learn a bit about the flavour profile, brewing process, and inspiration. Every beer is named after a person or place from the area, connecting the landscapes of Lake Mývatn and local heroes to each beer.

LOFTHELLIR ICE CAVE - 04 JULY 2027

COST	\$1012 AUD	DURATION	5 HOURS	DEPARTS	8:00AM OR 10:30AM
------	------------	----------	---------	---------	-------------------

The Lofthellir Ice Cave is a lava tunnel filled with permafrost ice. The cave boasts incredible ice formations, some of which are hundreds of years old, that have been formed by dripping water over the course of time. The tour will start from the Lake Mývatn area, passing some incredible geology, including the volcano Mt. Hverfjall, and along the Lúdentarborgir crater row. Once the base of Mt. Hvannfell is reached, there will be a 30-minute guided hike across lava fields to the entrance of the Lofthellir cave. Minimum 6 pax required on tour.
